## Accounting Principles

### Notes about the balance sheet and statement of income and expenditures

#### General

The financial statements include the results of Stichting Effectief Altruïsme Nederland as of January 1st, 2024 to December 31st, 2024.

The financial statements are prepared in accordance with the requirements of the Dutch Guidelines (Dutch Accounting Standards Boards guidelines 2019/650) RJ 650 (Richtlijn Fondsenwervende Instellingen).

#### Reporting period

The financial statements are prepared and presented with the assumption that continuity is ensured for at least one financial year. The financial year covers the period January 1st, 2024 to December 31st, 2024.

#### Method of valuation

Assets and liabilities, except stated otherwise, are presented at nominal value based on historical cost price. Income and expenditures are allocated to the period in which they occur and are realized.

#### Balance sheet

##### Fixed assets and Current assets

Fixed assets and current assets are presented at fair value and if necessary are deducted with a provision for possible irrecoverable amounts. Fixed assets are depreciated with 20% per year.

##### Financial instruments

Financial instruments include other current assets such as cash and cash equivalents and current liabilities. Financial instruments are presented at nominal value. At the presentation of the first period, the related transaction costs are included in the statements of incomes and expenditures, followed by a valuation of the financial instruments as described below.

##### Cash and cash equivalents

Cash and cash equivalents are presented at nominal value and are freely available to the organization.

##### Restricted reserve

In the restricted reserve all donations are included which will be spend on the objective of the foundation.

##### Continuity reserve

The continuity reserve is at free disposal of the organisation as long as it is spent in line with the objectives as indicated in the statutes. In line with the Financial Management Directive for Charities (2011) of Goede Doelen Nederland (GDN), the continuity reserve will not exceed 1.5 times the annual costs of the organisation.

#### Statement of income and expenditure

##### Income

The income received is broken down in generated funds and income from products / services. In line with the Directive RJ 650 for Fundraising Organisations, the generated funds are further broken down into funds received from private donors and funds received from other non-profit organisations.

##### Expenditures

Expenditures of conditional project agreements are included in the year they are realized. The own fundraising, management and administration costs are included as spent in a year.

Costs are allocated to the following activities:

- I. Costs spend on objective,
- II. Costs Communication & Awareness Raising,
- III. Costs own fundraising,
- IV. Costs of management and administration,

The costs are allocated based on the following:

- Direct attributable costs are allocated as spend on objective,
- Not directly attributable costs are allocated based on an estimation of FTE's time spent on activities.
